The IMDEA Food Foundation invites eligible international researchers to choose it as their host institution for a Marie Skłodowska-Curie Individual Fellowship for proposals in all fields.

Individual Fellowships provide support for Experienced Researchers undertaking mobility between countries. Individual Fellowships provide opportunities to acquire and transfer new knowledge and to work on research in a European context. The scheme particularly supports the return and reintegration of researchers to Europe or Associated Countries. It also develops or helps to restart the careers of individual researchers that show great potential, considering their experience. All Marie Skłodowska-Curie actions have a bottom-up approach, i.e. research fields are chosen freely by the applicants. Projects can range between 12-36 months.
